Coating Substrates and Textiles: A Practical Guide to Coating and Laminating Technologies

Andreas Giessmann

Coating Substrates and Textiles: A Practical Guide to Coating and Laminating Technologies Andreas Giessmann

This book provides knowledge on the finishing of substrates with a functionalising coating, emphasizing on technical textiles. The spectrum of topics covers different substrates and coating materials, process engineering and equipment components as well as complex machinery. The reader is presented with an overview of the technical capabilities of substrate coating, enabling the practitioner to design and implement new products. Furthermore the author goes into detail on various air pollution control procedures and economic issues of asset valuation.
