Rainstack! Onur Tukul

There's a drought in the jungle, and the animals are hot and thirsty. Lion thinks that if the animals all work together, they can come up with a solution. Should they try shaking the rain out of the sky, by jumping up and down? When the animals still can't make it rain, Rabbit, who has always been a talented inventor, comes along. He thinks he can solve this problem all by himself. So he makes a robot, which he just has to get as close to the sky as possible...Turns out, he may need the help of the other animals after all. With quirky artwork and a unique 64-page format, this picture book tells a tale of the power of perseverance and working as a team.
