Inventing the Camera (Breakthrough Inventions)

Joanne Richter

Inventing the Camera (Breakthrough Inventions) Joanne Richter

This work is intended for ages 9-12. With the invention of the camera, the last century and a half has become the most visually documented age in history. This fascinating book describes in simple terms how a camera works and identifies the inventors who helped develop this important technology. Follow the camera's evolution from the discovery in ancient China that an image could be created from light travelling through a pinhole, to modern day digital cameras, camera phones, and web cams. Topics include: the first cameras and the birth of photography; the marketing industry and big players; advances in film, lenses, flashes and colour photos; and some of the world's most famous photographers.
