Excerpt from The Granite Monthly, Vol. 36: A New Hampshire Magazine Devoted to History, Biography, Literature, and State Progress

So distinct and comprehensive are the physical characteristics of the territory that describes the limits of the town of Enfield, that it is wholly and pleasingly unlike any other locality in the state. Grandeur and majesty are the dominant traits of one locality; the ruggedness and strength of the picturesque of another: the ocean's shore and surf, and turbulent headland prevail in a third, but here, in this heart of the Mascoma valley, nature reigns in a constant, never-changing mood of peace, beauty, and harmony. Here the beautiful and the picturesque blend without discordant note, the hills are verdure-clad in luxuriant growth, the most sought for phases of nature abound, and every farmstead and home face the rising and coursing sun. All the influences of nature's aspects that here abide conspire to create placidity of mind and soul satisfying conditions.

For more than a century Enfield has been the chosen abiding place of one of the country's largest communities or settlements of that ecclesiastical sect called Shakers, a cardinal principle of whose organization is that "mine is thine and thine is mine," or, in other words, communism in actuality.
