Iceland is not only a lovely country to visit, it is one of our most popular titles. This is a relatively minor updating, designed to keep our artwork fresh and up to date. We have retained the cover picture of the geyser that gave its name to all naturally occurring fountains of water that explode out of bedrock at regular intervals, as it so perfectly represents this beautiful country. As with previous versions, this map is printed on plastic for durability. The plastic is waterproof as well, which is not a big issue in Iceland, but the map can be used as an umbrella in the event of a sudden shower.
