Are your students reading effectively?

Are your students performing as well as they hope and expect to in your course?

Meet PsychSmart from McGraw-Hill. PsychSmart is the newest member of the McGraw-Hill M Series family. . . **and the M Series started with YOUR students.**

Through extensive student research, we have created a textbook and learning system designed to meet the needs and maximize the workflow habits of today's college students. Students told us they wanted a briefer text with more visual appeal...and a less expensive price.

We listened.

We also listened to instructors.

We learned about the challenges that they faced in their classrooms everyday and what their ideal course materials would look like. They told us they needed an engaging solution for their course needs – but without sacrificing quality and content.

The result is PsychSmart. Authored by master teachers, PsychSmart uses a wealth of real world examples, media and online interactivities to create a dynamic and engaging learning solution designed to reach today's students.
