Why does one child straighten up with only a stern glance from Mom, while another may require her parents to take away privileges or give her a time out? According to Dr. Greg Cynaumon, it's because each child has a personal Discipline Quotient--a disciplinary "temperament" that makes some methods work better than others. Including individual self-tests to help parents identify the D.Q. of each of their children, this book promises not only to stop rebellion before it starts, but to bring families closer together.
