New Visions for the Americas: Religious Engagement and Social Transformation

New Visions for the Americas: Religious Engagement and Social Transformation

At the approach of a new millennium, profound economic, social, and geopolitical changes have transformed the global map and shaken the contours of liberation thinking, North and South. Although the overarching hemispheric issue remains justice, it is more likely now to erupt in contexts of environment, basic economic rights, systems of adjudication, the survival of indigenous peoples, and the liberation of women worldwide. To address this new context of liberation, especially around structural issues of race, class, and gender, this volume presents the views of fourteen of today's most incisive religious leaders and thinkers - male and female, North and South, black and white, theologians and activists.
