**College Students in the United States: Characteristics, Experiences, and Outcomes** Kristen A. Renn, Robert D. Reason

*College Students in the United States* accounts for contemporary and anticipated student demographics and enrollment patterns, a wide variety of campus environments and a range of outcomes including learning, development, and achievement. Throughout the book, the differing experiences, needs, and outcome of students across the range of “traditional” (18-24 years old, full-time students) and non-traditional (for example, adult and returning learners, veterans, recent immigrants) are highlighted. The book is organized, for use as a stand-alone resource, around Alexander Astin’s Inputs-Environment-Outputs (I-E-O) framework.
